

Issue 3

August 2022

School Management System

Designed to make administrating schools and classrooms easier and is comprehensive and affordable. Track student attendance, activities and improve communication between staff, teachers, students and parents.

Semester 1 Reporting

With Semester 1 well and truly behind us we thought we would like to create graphs so you can visually view your collected data.

Interactive Charts are now available in the reporting section for both student overviews and viewing class information. You can include or exclude semester report score information.

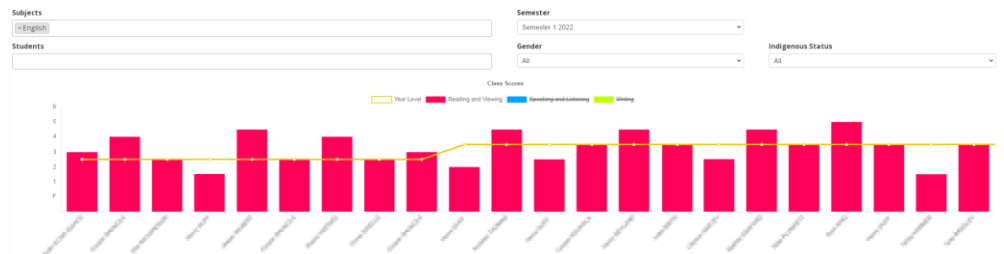

Student Overview

Example includes learning areas for English, mathematics and health and physical education

Class Overview

Example includes all students reading and viewing results for a class.

uEducateUs Mobile (Android)

The new mobile app has entered closed testing. This is the last step in the process before it will be made available via the google play store. All schools will receive correspondence regarding its official release and feature set in the coming weeks.

Latest Updates

We constantly strive to make our product better for you:

- **Newsletters – read status**
You can now see who has opened newsletters, plus you can run an activity report that includes the entire audience of a newsletter.
- **Semester Report Interactive Chart Data**
Semester report scores are now visually charted in Student Overviews and Class Overviews (see section above)
- **Additional charts have been added to DAT Test data**
Test results can now be viewed as a chart to easily evaluate student results.
- **Western Australia Curriculum -**
As part of our expansion into other states we have now added the Western Australia Curriculum to Semester Reports.
- **Attendance Overview**
Attendance data is now accessible across multiple chart types.

The full list of the 1.31 release notes (updates) can be accessed directly from the uEducateUs system.

Newsletter Activity Logs

You can now easily keep track of which parents have viewed your school's newsletters, thanks to the implementation of Activity Logs available for every newsletter sent by your school through our system.

The Activity Logs are retroactive, so you will be able to keep track of who has read your past newsletters too. You can view these logs by following the steps below:

Navigate to Communication > Newsletters

Click on the **View** button for a particular newsletter

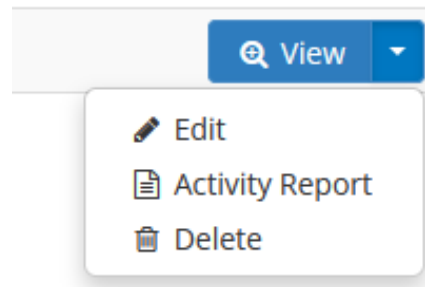

Click the **Read By** tab to see a list of users who have read the newsletter; this includes staff members as well as parents

Newsletter Read By

Newsletter read by

^ User Name	↕ User Type	Accessed	↕ Access Date
Admin	Administrator	11 seconds ago	05-08-2022 10:11 AM
Brady, Jennifer	Parent	2 minutes ago	05-08-2022 10:09 AM
Marina, Coral	Teacher	1 minute ago	05-08-2022 10:10 AM

You can also download the report as an excel file by clicking the arrow next to the View button for a newsletter, then selecting **Activity Report**

Referral Program

Have you heard about our Referral Program? Let us tell you a bit about it.

How it works: Simply refer a school and when they onboard with uEducateUs we will send you an Education Recognition Package for your school's support as a thank you.

**** Ask the referred school to mention you to one of our team 😊**
The greatest compliment we can receive is a referral and we like to 'give back' to children.
